Career Vision

An Electrical Engineer with Practical Hands on Electrical MCC Panel, PLC Programming and interface of SCADA Development, ready to serve as Automation Engineer

Practical Skills Gained in PRECON AUTOMATION & SYSTEM PVT.LTD.

- Low Voltage Electrical:

CIK wiring of D.O.L, R.D.O.L, Star-Delta, Single line diagram of electrical circuits, control wiring, Interlocking.

- Auto CADD:

Preparing G.A, B.O.M, Converting to PDF, saving files in (.dwg) format, drawing single line diagram (SLD), smart wiring, symbol libraries, Real time error check

- EPLAN:

Preparing G.A, B.O.M, wiring diagrams, schematic design, component libraries, part data addressing to device and generating part list.

- PLC-ALLEN BRADLEY 1766-L32 BXB:

PLC wiring, selecting PLC hardware for project, Ladder logic and addressing for Input/Output, Timer and Counter, Scale parameter, counting DI, DO & AI, AO for selection of PLC hardware, Configuring RSLinx, Communication with PLC on Ethernet.

- SCADA

Creating Discreate, Analog & String tags, Create Alarms, Configure Scripting Configure ODE between SCADA & EXCEL

Case Study On

Flexible AC Transmission

Aim: Precise P.F Correction

Working:

- 1) In transmission line the P.F plays the vital role.
- 2) Where this method is used to improve the power factor.
- 3) Whenever an Inductive load is connected to the transmission line P.F lags because of lagging load current.
- 4) To compensate, a shunt capacitor is connected which draws the current, leading the source voltage

Educational Qualification

Qualification	Institute Name	Year Of Passing	Percentage/CGPA
SSC	New Ideal English School. Vasind	2017	65.40%
Diploma	Shivajirao. S. Jondhle, Polytechnic, Asangaon.	2020	81.38%
BE. Electrical	ARMIET, Sapgaon	2023	6.33 CGPA
